## February's Curriculum

February is the month we celebrate Black History and Presidents Day, specifically Abraham Lincoln and George Washington.

The children will be making Valentine's crafts.

We are introducing from the math area the 45-layout, organizing numerals 1-9, 10-90, 100-900 and 1000-9000 with concrete golden beads that coincide.

We will also be starting our study of the continent of Africa. If you have information or artifacts to share please contact Tiffany.

We will be starting our study of Dinosaurs...the children always love this unit of study.
